

NebulaOps v22.4 Technical Release

Script Catalog

Professional technical package summary for the v22.4 delivery. This document uses v22.4 release references only.

Area	Description
WSL scripts	v22.4 script names are aligned with the release number, including preflight, repair, smoke, verify, run and build helpers.
Frontend build	scripts/wsl/build-frontend-local.sh builds the shell and all micro frontend dist folders for nginx runtime images.
Backend build	scripts/wsl/build-backend-jars.sh builds Spring Boot service jars when Maven is available on the host or in the configured environment.

Release version: 22.4.0

Package label: NebulaOps v22.4
