

NebulaOps v22.4 Technical Release

Software Tools

Professional technical package summary for the v22.4 delivery. This document uses v22.4 release references only.

Area	Description
Core tools	Angular, Spring Boot, MongoDB, Redis, RabbitMQ, Keycloak, Go, Docker, Helm, GitLab, Argo CD, Prometheus and Grafana remain the core toolchain.
Identity tooling	Keycloak is the authoritative provider for users, groups and roles. Redis is used for administration list cache optimization.
Operations	WSL scripts provide local start, stop, preflight, smoke and repair operations for the release package.

Release version: 22.4.0

Package label: NebulaOps v22.4
